{

    SYSTEM_Initialize();        // initialize the device

    int i,n=10000;

    RC3=0; RC4=0;

    }

}
```

Step 10: Go to your MPLAP Xpress IDE Erase all existing code and copy above code past there then make clean and build for Export. If you done this go to download you can see hex file for your project.
